Levon was from our second litter with Noodles, he lived in a great home in Bayonne NJ until his owner was unable to keep him any longer. He came back to live with us at 17 months. Despite the handicap of being a black mask, he won multiple best of breed and group 1 and group 2 wins in his best days. He was a big old love, but started to slow down a little in 2006. One morning we heard him trying to belch and when I saw him, I knew he was bloated. When we learned he was twisted over at least 1 1/2 times, I knew by looking in his eyes, it was time and he would not do well with surgery at his age. He was a sweetheart, always good to run as fast as he could and body slam you. Although he tried to castrate his own father in the ring, he never showed sign ONE of ever being aggressive to any person, he loved everyone. He is greatly missed.
